About me

I care about both physical and digital design & process; how it shapes behaviour, politics, and our way of life. Interests beyond design include Chess, Backgammon, Poker, Running, Finance, Blockchains, innovations from Agri-tech to AI, the history of Silicon Valley, Chip Manufacturing — really just learning as much as I can.

Employment

Access Infinity

London,UK (2020–)

Associate Director of Design (*UX/UI Designer* → *Senior UX Designer*)

- Lead Designer for SaaS products ‘Nuro’ and ‘Access Hub’ taking the projects from ideation to production.
- Worked closely with team of engineers and data scientists to build client facing and internal tools.
- Currently managing a team of 2 mid-weight designers, and 1 senior designer
- SaaS tools have seen a growth of ~3,500% ARR since the beginning of my tenure.
- Onboarded 80% of top pharmaceutical companies as clients.
